3D Full HD 1080P HDMI Extender Over Single CAT5e/6 (60M)

Thank you for purchasing our product. To ensure safety and many years' trouble-free operation of the product, please read the manual carefully before using this product.

1.0 INTRODUCTION

The HDMI to RJ45 Extender use single cat-5e or cat-6(recommended) cables up to 60 meters instead of HDMI cable to transmit high definition signal, for cutting down cost. Long distance transmission of high definition is very difficult because HDMI cable is very expensive and infrequent. The Extender is designed to supply for long distance transmission of high definition signal.
